**FIGURE 7.
LANDSCAPE FEATURES/
POLICY AREAS OF
SIGNIFICANCE**

LEGEND

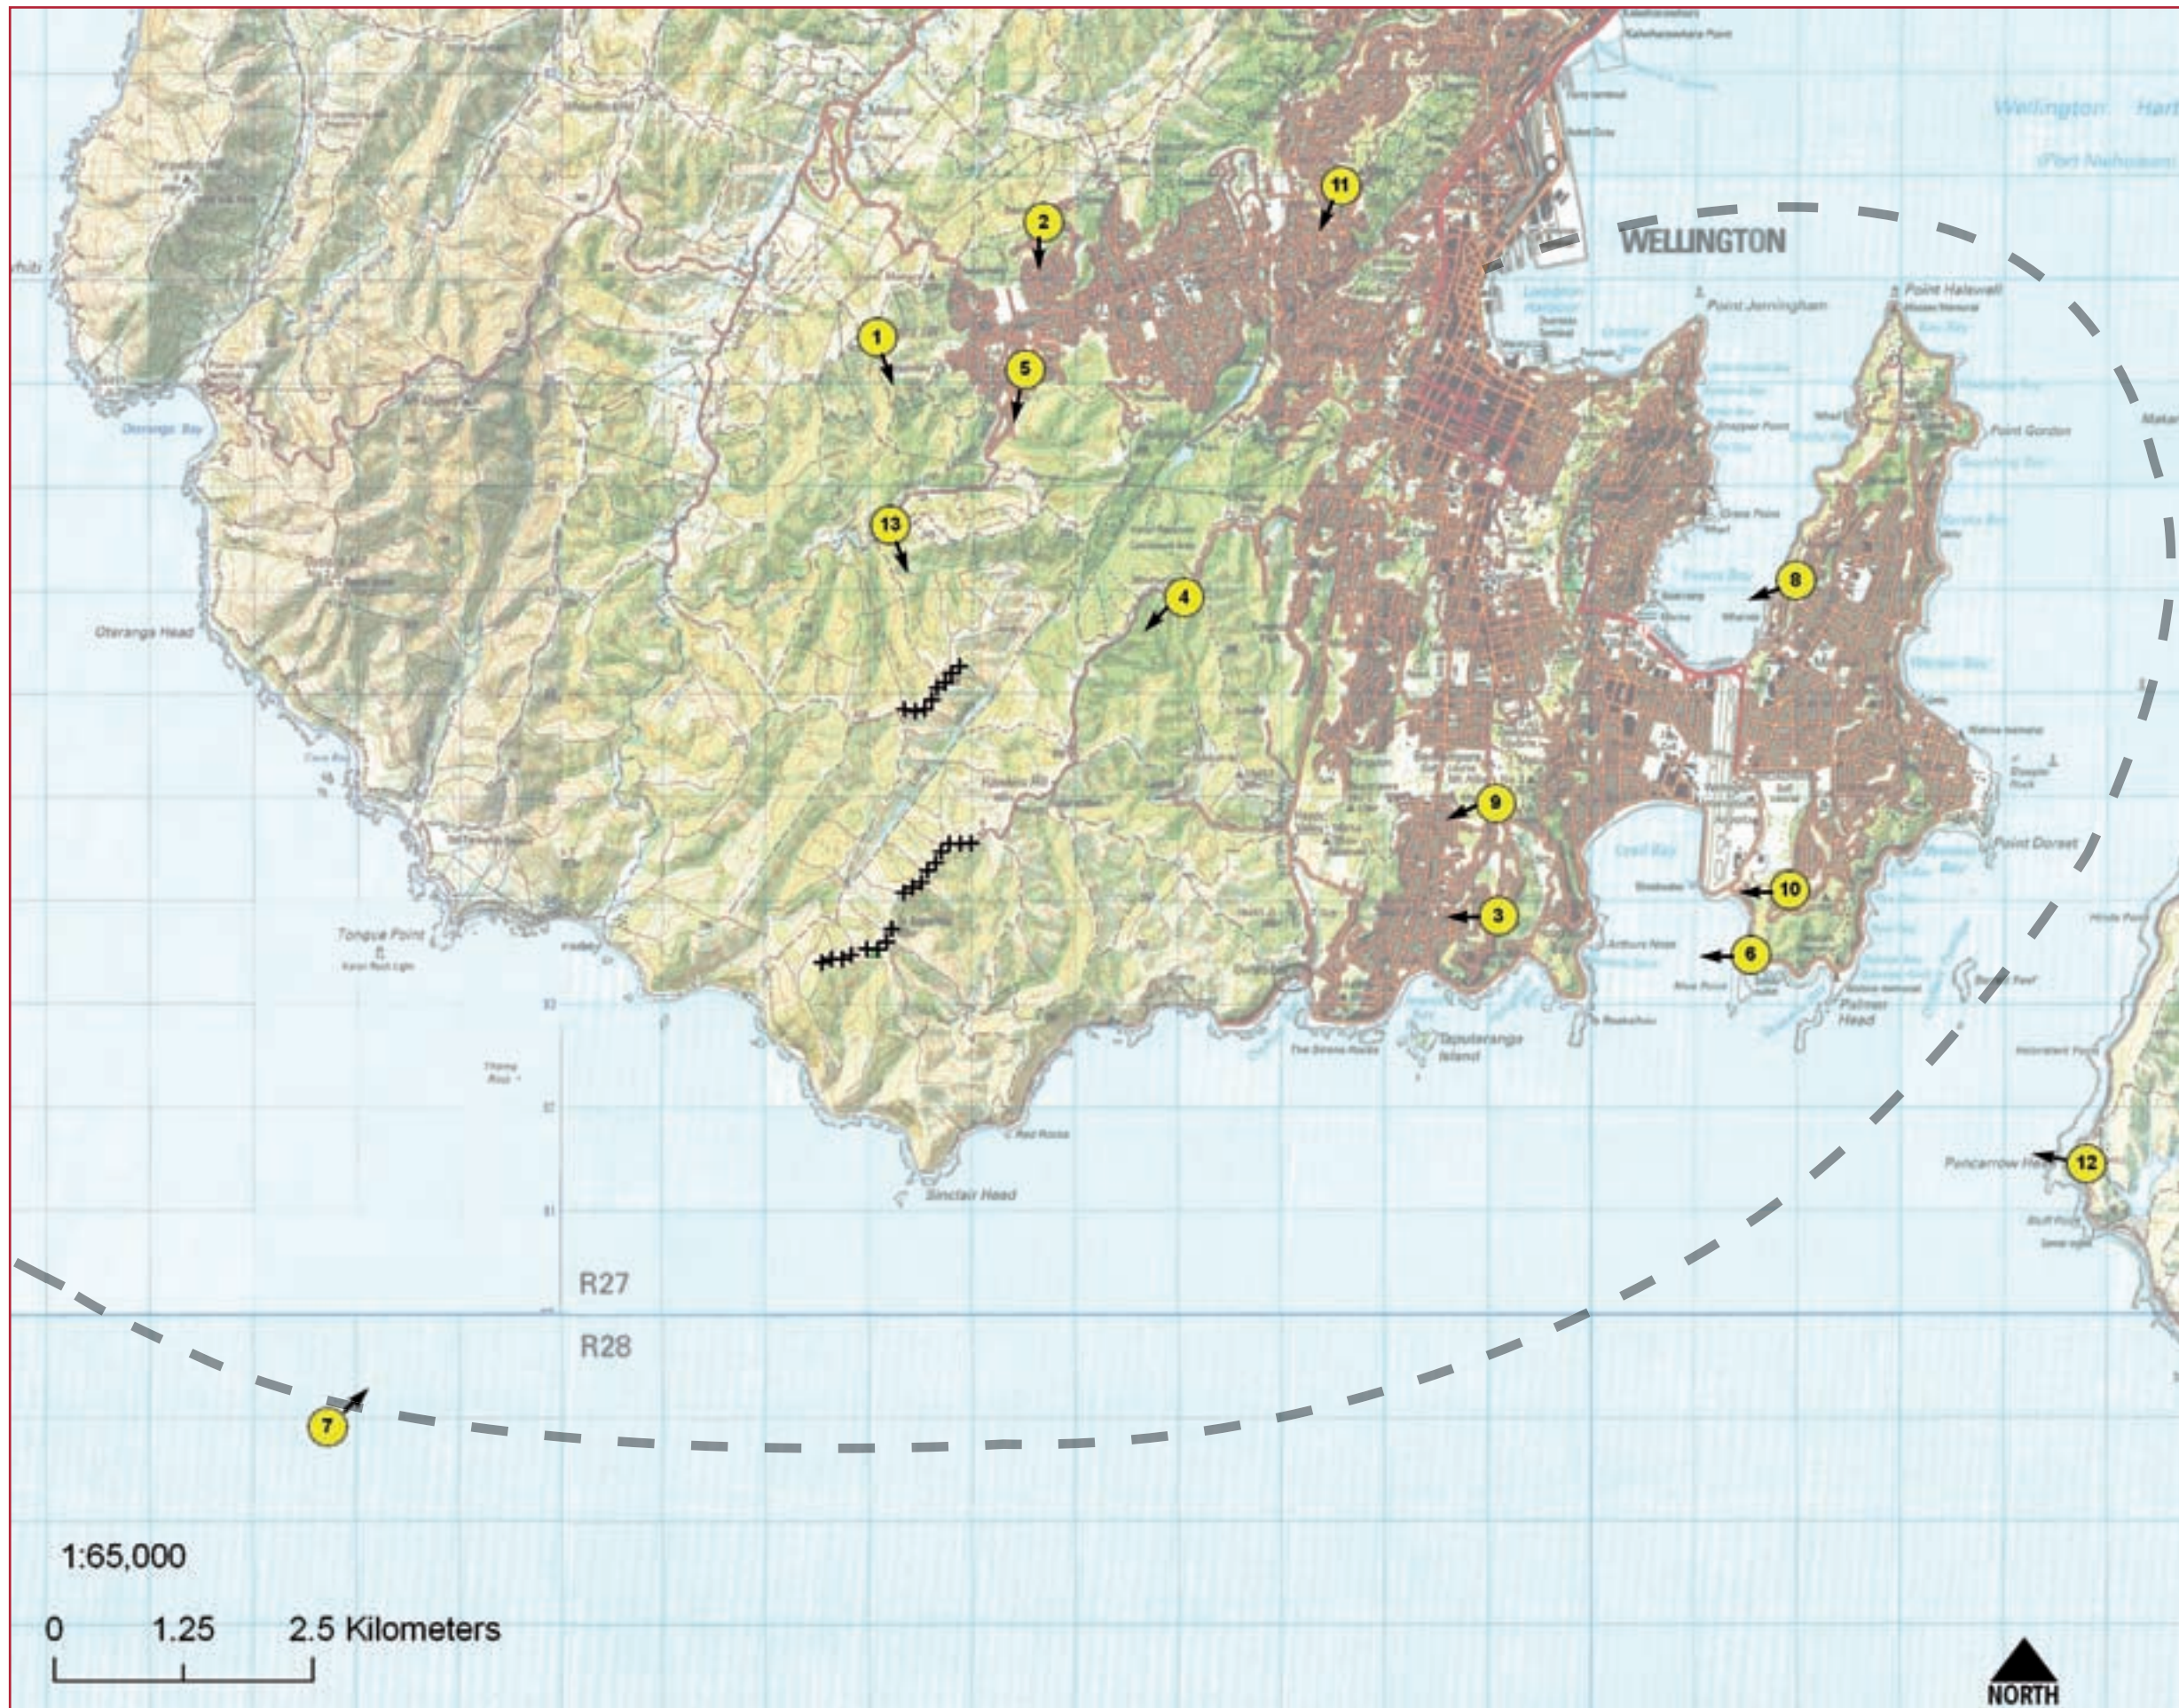

- Proposed wind turbines
- Geopreservation Inventory ¹
- DOC Indigenous Threatened Environments ²
- DOC Designated Ecological ³ Sites
- Coastal Sites of Regional ⁴ Significance
- Coastal Landscapes of Significance ⁴
- DOC Reserves ⁵
- Hill Tops and Ridges ⁶

REFERENCE SOURCES

1. Inventory and Maps of Important Geological Sites and Landforms in the Manawatu and Wellington Regions, Geological Society of New Zealand, 1996.
2. DOC Indigenous Threatened Environments as defined for the Protected Natural Areas initiative 2008
3. DoC Designated Ecological Sites
4. The Wellington Regional Policy Statement(1995)
5. DOC Reserves – “Extract for Wellington Conservancy of the National Conservation Unit dataset, copied on 4/02/2009. Nationally compiled dataset containing geospatial definitions of DOC management units (conservation units) defined by various acts of parliament and legislation. The national conservation unit featureclass is integrated with the Department’s national land register to provide textual descriptions of land administered by the Department.”
6. “DP Change 33, Ridges and Hilltops”
